**STATE OF MISSISSIPPI
MISSISSIPPI BOARD OF PHARMACY**

Conner & Winters, LLC
Attn: Hilary Velandia, Esquire
15 East 5th Street
Suite 4100
Tulsa, OK 74103

Dear Ms. Velandia:

The Mississippi Board of Pharmacy has received your request on behalf of AlignRx, LLC ("AlignRx"), a Pharmacy Services Administration Organization ("PSAO"), seeking a declaratory opinion. The response below is provided pursuant to the requirements of Miss. Code Ann. § 25-43-2.103 and 30 Miss. Administrative Code Pt. 3002, Chapter 2, Declaratory Opinions.

Requests for declaratory opinions are governed by the Mississippi Administrative Procedures Act and Chapter 2 of the Mississippi Board of Pharmacy Administrative Rules. Miss. Code Ann. § 25-43-2.103; 30 Miss. Administrative Code Pt. 3002, Ch. 2. A request for declaratory judgment must contain a question regarding "a single transaction, occurrence or issue" and must provide sufficient clarity on the matter to allow for the issuance of a declaratory opinion. 30 Miss. Administrative Code Pt. 3002, Ch. 2, R. 2.3, 2.7(B), 2.8(B). Although the request of AlignRx does not contain a question as required by the Administrative Rules, AlignRx has provided a proposed opinion with a question and five subparts relating to the single issue of retroactive reconciliation. The Board finds that the totality of the submission by AlignRx meets the Agency's rules for the issuance of a declaratory opinion.

Question Presented

Whether the retroactive reduction prohibition in Miss. Code Ann. § 73-21-155(6) prohibits the following conduct by Pharmacy Benefit Managers ("PBMs"):

- a. Paying a pharmacy claim at one rate as a basis for payment throughout the contract year at the point of sale and then reconciling the payment rates to a brand effective rate or generic effective rate ("BER GER") at the end of the year, if doing so results in the reconciled rate being less than the rate paid for any claim covered by the reconciliation at the point of sale;

- b. When a reconciliation results in a “true up” of funds for each pharmacy, implemented by deducting funds from payments made to pharmacies via Central Payments through a PSAO to offset overpayments identified in the reconciliation;
- c. When a reconciliation is applied across all applicable claims, in a way that is not claim specific;
- d. When the reconciliation results in a PSAO pharmacy network not receiving enough funds from the PBM to reimburse the network pharmacies for underpaid claims identified as part of the reconciliation; or
- e. When there is an aggregate reconciliation of claims using BER GER to determine whether a PSAO pharmacy network has been overpaid or underpaid as a whole, even if the PBM does not create or provide the PSAO with the specific amount overpaid or underpaid for each claim.

Brief Response

Yes. Mississippi Code Annotated, Section 73-21-155(6), prohibits any instance of post-adjudication reconciliation by a PBM which has the effect of retroactively reducing a claim payment by a PBM to a pharmacy, whether for a specific claim or aggregate of claims. This prohibition would apply to a PBM retroactively reducing a payment directly to a pharmacy and also to the retroactive reduction of a payment by a PBM to a PSAO that is contractually responsible to make claim payments on behalf of the PBM to a network pharmacy.

Background

You explain in your letter that AlignRx is a PSAO and is requesting a declaratory opinion on the application of Mississippi law to the use of BER GER reconciliations by PBMs which result in the retroactive reduction of previously adjudicated claims paid through a PSAO. Your letter quotes from the Mississippi Pharmacy Benefit Prompt Pay Act, Miss. Code Ann. § 73-21-155(6), and emphasizes portions of that statutory language, as follows:

A pharmacy benefit manager shall not **directly or indirectly retroactively** deny or **reduce a claim or aggregate of claims** after the claim or aggregate of claims has been adjudicated.

Your letter states that AlignRx is of the opinion that the above-quoted statutory language prohibits PBMs from using BER GER at the end of the year to reconcile previously paid claims, where such reconciliation results in the retroactive reduction of previously adjudicated claims, both at a claim-specific level and when applied in the aggregate across all applicable claims. AlignRx also states that Section 73-21-155(6) should prohibit three instances of retroactive reconciliation by PBMs to PSAOs, as identified in your letter—where reconciliation results in a

“true up” of funds for a network pharmacy which the PBM deducts from the PSAO Central Payment system; where reconciliation is applied across all applicable claims and is not claim-specific; and where reconciliation causes the PSAO to receive insufficient funds from a PBM to allow a PSAO to reimburse network pharmacies for underpaid claims.

Your letter also provides information on the operation of the PSAO pharmacy network central payment system and the use of the central payment system by PBMs to transmit payments and to recoup overpayments. You explain that when a PBM withholds reconciled amounts or reduces the total payment to a PSAO without providing claim-specific reconciliation information for PSAO network pharmacies, this results in a deficit to the central payment system and to the PSAO as a whole, causing the pharmacies themselves to ultimately bear the financial impact of the PBM’s recoupment. You further state that where a PBM does not provide the amount overpaid or underpaid for each claim and pharmacy, a PSAO must identify and collect from overpaid pharmacies within a PSAO network pharmacies. You state that AlignRx believes that the conduct described in its letter is prohibited by Mississippi law.

Analysis

Your question involves the retroactive reduction of payment by a PBM after the adjudication of a claim or aggregate of claims. The answer to your question requires a review of the Pharmacy Benefit Prompt Pay Act, codified at Miss. Code Ann. §§ 73-21-151 to 73-21-163.

The Pharmacy Benefit Prompt Pay Act establishes statutory requirements for the timely reimbursement by PBMs to pharmacies and pharmacists for prescription drug claims. Miss. Code Ann. § 73-21-155). The prohibition of the retroactive denial or reduction of a claim is specifically addressed in the Pharmacy Benefit Prompt Pay Act, Section 73-21-155(6), which states as follows:

A pharmacy benefit manager shall not directly or indirectly retroactively deny or reduce a claim or aggregate of claims after the claim or aggregate of claims has been adjudicated.

The Pharmacy Benefit Prompt Pay Act provides that the “electronic adjudication” of a claim “means the process of electronically receiving, reviewing and accepting or rejecting an electronic claim.” Miss. Code Ann. § 73-21-153(e). Thus, a claim is adjudicated when a PBM resolves the claim by acceptance or rejection. The term “directly” means “in a straightforward manner, line, or course.” *Cassibry v. State*, 404 So. 2d 1360, 1368 (Miss. 1981). The term “indirectly” is commonly understood to mean “not directly aimed or achieved, or not having a clear and direct connection.” Merriam-Webster, *Injury*, <https://www.merriam-webster.com/dictionary/indirect>. As used in Section 73-21-155, a PBM directly or indirectly denies or reduces a claim where a PBM deducts or recoups amounts directly from a pharmacy or where a PBM achieves recoupment by deducting or recouping amounts from a PSAO.

As the Pharmacy Benefit Prompt Pay Act, Section 73-21-155(6), prohibits a PBM from denying or reducing a claim or aggregate of claims after adjudication, it is our opinion that a PBM cannot use post-adjudication reconciliation which has the direct effect of retroactively reducing a claim payment when done by a PBM to a pharmacy and has an indirect effect of retroactively

reducing a claim(s) payment when done to a PSAO that is contractually obligated to make a claim(s) payment to a network pharmacy on behalf of a PBM. This prohibition is true for both an individual claim and aggregate of claims. Additionally, it is our opinion that after a PBM has adjudicated the claim or aggregate of claims of a PSAO network pharmacy, the PBM cannot recoup an overpayment by debiting the central payment system of a PSAO or by withholding a payment made through the central payment system of a PSAO.

Accordingly, it is our opinion that the following conduct by a PBM would result in a direct or indirect retroactive reduction of a claim or aggregate or claims which is prohibited by Section 73-21-155(6):

1. Approving and paying a pharmacy claim at one rate as a basis for payment throughout the contract year at the point of sale and then reconciling the payment rates to a brand effective rate or generic effective rate ("BER GER") at the end of the year, if doing so results in the reconciled rate being less than the rate paid for any claim covered by the reconciliation at the point of sale and a retroactive reduction is made to the claim payment of a pharmacy;
2. A post-adjudication reconciliation that results in a "true up" of funds for each network pharmacy, implemented by deducting funds from claim payments made to network pharmacies via central payments system through a PSAO to offset overpayments identified in the reconciliation;
3. A post-adjudication reconciliation that is applied across all applicable claims in a way that is not claim specific and results in a reduction in the amount a network pharmacy is paid for a claim or aggregate of claims;
4. A post-adjudication reconciliation that results in a PSAO pharmacy network not receiving enough funds from the PBM to reimburse the network pharmacies for underpaid claims identified as part of the reconciliation; or
5. An aggregate reconciliation of claims using BER GER to determine whether a PSAO pharmacy network has been overpaid or underpaid as a whole, if the PBM does not create or provide the PSAO with the specific amount overpaid or underpaid for each claim, and the aggregate reconciliation results in a reduction in the amount paid to a previously adjudicated claim of a network pharmacy.
