A compounding record (CR) documents the compounding of each CNSP. A CR must be created for all CNSPs. Each CR must be reviewed for completeness before the CNSP is released. The name or other unique identifier of the person completing the review and the date of the review must be documented on the CR. The CR must permit traceability of all components in the case of a recall or known quality issue. The MFR can be used as the basis for preparing the CR.

Section 11. SOPS

Facilities preparing CNSPs must develop SOPs on all aspects of the compounding operation. All personnel who conduct or oversee compounding activities must be trained in the SOPs and are responsible for ensuring that they are followed. One or more person(s) must be designated to ensure that SOPs are fully implemented. The designated person(s) must ensure that follow-up occurs if problems, deviations, or errors are identified.

Specifically, after receiving two complaints, an investigation was conducted by three agents of the Board at Butler Pharmacy, LLC, Pharmacy Permit Number 18554/1.1, on June 23, 2025. While there, a follow-up inspection was performed to review prior issues and a USP 795 compounding inspection was completed. The following violations were noted:

Violation of USP 795 Section 2:

Racheal Butler, Pharmacist License, Certificate of Registration E-13191, is the owner, pharmacist in charge, and designated person of Butler Pharmacy, LLC, Pharmacy Permit Number 18554/1.1. Ms. Butler could only document her initial USP 795 training on August of 2023 and did not have documentation of additional training every twelve months from the date of her initial training.

Violation of USP 795 Section 4.2

Racheal Butler, pharmacist in charge and designated representative, failed to comply with USP standards as temperature readings were not documented on a temperature log or stored in the continuous temperature recording device.

Violation of USP 795 Section 5

Racheal Butler, pharmacist in charge and designated representative, did not meet USP standards as there were no cleaning logs to document that proper cleaning and sanitizing of the surfaces in the nonsterile compounding area had been done.

Violation of USP 795 Section 7.2

Racheal Butler, pharmacist in charge and designated representative, did not meet USP standards as there were incomplete compounding records for compounded products and missing compounding records for other compounded products located in the pharmacy.

Violation of USP 795 Section 11

Racheal Butler, pharmacist in charge and designated representative, did not meet USP standards as she failed to ensure that there were SOPs on all aspects of the compounding operation.
