These records shall include:

- A. A current dated and signed inventory of all controlled substances on hand on the inventory date;
- B. Complete and accurate records of receipt of all controlled substances;
- C. Complete and accurate records of disposition of all controlled substances.

These records shall be kept in such a manner that an audit will show the beginning inventory and record of acquisition of controlled substances to balance with the controlled substances on hand and the record of disposition of controlled substances.

Specifically, on October 14, 2025, Compliance Agents for the Board conducted a routine annual inspection and an accountability audit at Ashland Drugs, Pharmacy Permit #01530/1.1. The final audit was completed on November 17, 2025, and found shortages of Hydrocodone 10/325mg (-1747) and Hydrocodone 7.5/3.25 mg (-152). As the pharmacist-in-charge, Ruan L. Bailey, Pharmacist License, Certificate of Registration Number T-08057, is responsible for complying with all recordkeeping regulations.

Count 2

Mississippi Pharmacy Practice Regulations, Article VII Responsibility of Pharmacist-in-Charge (PIC), Paragraph 5:

5. On the premises where a pharmacy is maintained in conjunction with other services or business activities, the pharmacy shall be physically secured from such other services or activities during those times a pharmacist is not present and the pharmacy is not open, and other services or activities are being provided on the premises.
 - A. The Pharmacy shall be secured by a physical barrier to detect entry at a time when the Pharmacist is not present.
 - B. Each pharmacist while on duty shall be responsible for the security of the Pharmacy, including provisions for effective control against theft or diversion of Drugs and/or Devices.
 - C. The pharmacist-in-charge shall be responsible for adequate security being maintained on drugs in all areas of the permitted facility at all times and is responsible for reporting any loss or suspected loss of controlled substances or legend drugs directly to the Board immediately (this does not relieve any pharmacist who discovers a loss from the requirement of reporting the loss directly to the Board).

Specifically, the Board's inspection of Ashland Drugs, Pharmacy Permit #01530/1.1, conducted on October 14, 2025, revealed that a pharmacy technician had keys to the pharmacy and had accessed the pharmacy without a pharmacist present. An audit revealed shortages of Hydrocodone, a controlled substance. Ruan L. Bailey, Pharmacist License, Certificate of Registration Number T-08057, is the pharmacist-in-charge and is responsible for adequate security of the pharmacy.
